**MISSION STATEMENT** .....

DIELINE is committed to providing the highest levels of product quality, customer service and value. Our success to date is based on these principles.

DIELINE has its focus on innovation and flexibility coupled with a manufacturing strategy to create the operating capabilities which our valued customers need now and for the future. The strategy is fulfilled through continuous improvement to our systems and processes, on-going training and development of our personnel and effective working partnerships with our customers, suppliers and sub-contractors.

DIELINE believes that through top quality manufacturing, on-time reliable deliveries, top-class customer service and value, we will most effectively contribute to our customers and our own growth prosperity.

**COMPANY PROFILE**

Dieline is a well established precision engineering company, providing a range of manufacturing services to many UK companies. Dieline specialises in high vacuum applications to the Mass Spectrometry and Semiconductor Fabrication Equipment industries and provides sophisticated cleaning and clean room assembly facilities.

Charterhouse Tilney

A MEMBER OF THE ROYAL BANK OF SCOTLAND GROUP

GRADUATE OPPORTUNITIES IN STOCKBROKING

CHARTERHOUSE

A member of The Securities Association  
A member of The International Stock Exchange

IN-HOUSE LECTURE PROGRAMME

In addition to the formal examination programme, we also provide in-house training. A monthly lecture series, given by our Senior Investment Managers provides up-to-date information on specialised topics and subjects of current interest.

These lectures will give you the opportunity to update yourself on current events in the stock market and to increase your knowledge on specialised subjects.

TRAINING FOR GROWTH PROGRAMME

Your training programme continues after the initial two year period through our 'Training for Growth' seminars which we have developed in conjunction with a professional consulting firm.

These courses are designed specifically for advanced levels of management and are of a specialised nature.

CAREER PROGRESSION WITH CHARTERHOUSE TILNEY

Initially you will join us in either the Investment Management Department or possibly in the more specialised Institutional Research Department, depending on your particular background and interests. (See the attached leaflets for details).

Your progression is partly determined by successful completion of the Stock Exchange examinations but the main emphasis is placed on your individual performance, drive and initiative.

Factors such as age, sex, length of service have no relevance to career progression in Charterhouse Tilney. It's up to you as an individual.

MEETING THE CHALLENGE

The stockbroking profession has seen many changes, particularly since Big Bang in 1986.

As a regional but increasingly national broker, Charterhouse Tilney has benefited from the sophisticated computer systems now in operation; all information is available instantaneously throughout the country so it is now not as vital to live within commuting distance of the 'City'.

Also, as a regional broker, we can provide greater opportunity for advancement for the motivated graduate.

We have recently moved our premises to superb custom built offices at the Royal Liver Building in Liverpool.

This move is a result of our business growth and also firm commitment by the Royal Bank of Scotland Group plc, to the expansion of its stockbroking arm.

SALARY AND BENEFITS

We offer an excellent remuneration package which includes a performance related and profit sharing bonus, non-contributory pension and private medical insurance.

APPLICATION PROCEDURE

Please send your application, on a Standard Application Form to Mrs Diana Russell, Graduate Recruitment Coordinator, Charterhouse Tilney, Royal Liver Building, Pier Head, Liverpool, L3 1NY.
